Page theme  default  light  dark

Earth 6 is an alternate universe mostly known for a failed American Revolution, though this is far from the only different outcome and the actual divergence goes back centuries.

History

1184 BC: The Time Traveller [Lilith](#)^[↗] arrives in this time period during the Trojan War and ends up gouging the eyes out of Achilles due to him having his eyes closed when doused in the river styx. He becomes a poet after this.

55-54 BC: [Julius Caesar](#)^[W] invades Britain twice during this time, both times being repelled by [Alwin I](#) with aid from the Chieftain [Cassibelanus](#)^[W] and the turncoat [Aquila](#)^[↗].

1 AD: Alwin I unites the tribes of the Celts in Britain and is made their Superking. He becomes the first member of the Britannian Imperial Family. [Augustus Caesar](#)^[W] recognizes the Isles as independent from the Roman Empire. His ascension would later be used as the basis for the calendar established by Ricardo von Britannia I(Who will be forced to continue to use the Gregorian Calendar by the Time Travelling agency Faction Paradox due to them cutting a deal with King George III to use a handful of days provided by the switch from Gregorian to Julian as a base of operations).

1199: [Richard the Lionheart](#)^[W] is wounded by an arrow but survives the infection. He returns to England and exiles [Prince John](#)^[W].

1212: July 16: The Moors win the [Battle of Las Navas de Tolosa](#)^[W] on the Iberian Peninsula.

1215: Richard the Lionheart kills [King Phillip II of France](#)^[W] and unites both countries as the [Angevin Empire](#)^[W].

1216: Prince John dies in exile.

1219: Richard the Lionheart dies. His nephew Arthur (son of Geoffrey of Brittany) becomes king at the age of 32. King Arthur makes a deal with [John Uskglass](#)^[W] allowing greater acceptance of magic, leading Sir Hilary of Walsingham to outline the theory and mathematics of magic in scientific terms.

1271-1295: The Philosopher's Stone is discovered in [Stonehenge](#)^[W] due to a magic ritual conducted there. [Marco Polo](#)^[W] journeys to Japan and discovers it there as well, where it is known as [Sakuradite](#).

1415: France breaks away from The Angevin Empire, prompting King Henry IV to declare war. The time travelling Alien [Visser Four](#) attempts to kill him but another group of time travellers are able to stop him and both groups jump forward in time.

1420: King Harold makes the last additions to the Angevin Empire in Europe.

1492: Maestrazgo is unable to fund the expedition of Christopher Colombus.

1497: Englishman [John Cabot](#)^[W] discovers the New World in place of Colombus.

C.1500-1530: C.C. This Universe's version of [Snow White](#)^[W], is born. She will become immortal and gains the power of the Geass.

1563: [Queen Gloriana I](#)^[E] is never assassinated due to Maestrazgo [not being able to fund Prince Ludwig's attack on the throne](#)^[W]. As a result, she has a son with an unknown father, though the potential fathers gain much power, Edmund Blackadder being one of them.

1569: Anglo-French ships reach [Mechicoe](#)^[W].

1600: The time traveller Lilith blows up [Yoshi Taranaga](#)^[W] at the [Battle of Sekigahara](#)^[W], resulting in the Nakamura Shogunate rising up in place of the [Taranaga Shogunate](#)^[W] and [Miyamoto Musashi](#)^[W] becoming a famed poet rather than a warrior. The Nakamura Shogunate began expanding to [Hun Chiu](#)^[W] and colonizing the West Coast of North America.

1603: Queen Gloriana passes away, resulting in her son Henry IX becoming King. This is contested by King Jacob.

1610: [King Henry IV of France^{\[W\]}](#) survives an assassination attempt. Later on English inventor [William Lee^{\[W\]}](#) invents the Knitting machine, [spurring an Industrial Revolution in France^{\[W\]}](#).

1625: Japan discovers the City of [Kiri-Wan^{\[W\]}](#) or "The Bay of Fog" and [Kyoto^{\[W\]}](#), meaning Eastern Capitol in what we would know as California.

1648: The Puritanical [Oliver Cromwell^{\[W\]}](#) lead an uprising against Queen Gloriana II due to the fae blood she inherited from her namesake. The British Isles are seized. This takeover also splits the loyalty of the North American colonies with New England fledgling loyalty to Cromwell and the South pledging loyalty to the Crown.

1658: Oliver Cromwell falls ill and nearly dies but is saved by one of his followers with healing magic known as a "[Knack^{\[W\]}](#)". Cromwell lives 10 more years.

1669: Cromwell dies. His Commonwealth is overthrown but his followers flee to New England. The Monarch is reinstated in the British Isles.

1727: [King George I^{\[W\]}](#) dies. [King George II^{\[W\]}](#) is coronated but during the procedure he trips and his son [Prince Frederick laughs at him[↗]](#). In anger, King George II exiles his son to the colonies.

1728: Prince Frederick arrives in [Apodidraskiana^{\[W\]}](#) and settles in the town of [Fredericksburg^{\[W\]}](#), named after him due to being unaware of his exile.

1732: Prince Frederick has an affair with Mildred Gregory (sister of the Virginian planter Augustine Washington). To end the scandal, he marries her.

1733: Prince Frederick's son, the future George III is born and raised alongside George Washington. [A Multiversal group of Athenians at war with another group of Cathaginians[↗]](#) arrange it so that Richard Saunders becomes the tutor to both of them.

1745: Jacobite exile "[Bonnie Prince Charlie^{\[W\]}](#)" invades the British Isles with French support, including steampunk technology.

1749: Prince Frederick is confronted in America by his brother Prince William. William is assassinated during their meeting. Leaving Frederick as King. The assassination was orchestrated by Frederick. King Frederick cuts a deal with the multiversal Athenians which grants him access to technology such as railways, dirigibles, radio, electricity, and flush toilets.

1750: King Frederick attacks the British Isles and kills Bonnie Prince Charlie, countering the steampunk technology with the Multiversal athenian granted technology. He then walks into Parliament. Later on he proclaims the colonies as The Empire of North America.

1756: Osterlich signs a formal alliance with France at Versailles, leading Britain to declare war on France. Queen Mildred dies and King Frederick sinks into depression. The Seven Years War begins.

1757: Prince George goes undercover as Ralph Robinson and joins George Washington in the army to fight the French in America.

1759: Frederick II of Prussia dies in battle against Osterlich and Russia forces. In America, Ralph Robinson is wounded and his true identity is discovered. He and George Washington are sent back to Britain to reunite with the King. The unknown(In this universe) [James Hook](#) is killed in battle.

1760: Prince George reunited with King Frederick on his deathbed and becomes King George III.

1763: [France wins the Seven Years War](#)^[W].

1765: A Committee led by Richard Saunders begins advocating for Self Rule for the Empire of North America.

1769: France conquers Corsica. Carlo Bonaparte flees to Britain and changes his name to Charles Bone.

1771: Prime Minister [William North](#)^[W](named due to being born when Frederick was exiled) proposed the North Plan which would split the Empire of North America into Five Confederations.

1772: [Peter III](#)^[W] learns of and prevents a coup from his wife [Catherine the Great](#)^[W]. She is exiled to Alaska. Great Britain, Ireland and the Empire of North America make a deal with [Faction Paradox](#)^[W] and switch the Julian to the Gregorian Calendar(*Look to the West*). Fearing an alliance between Faction Paradox and the Athenians, the Carthaginian Closers abduct King George III and replace him with an imposter who begins to act hostile towards the colonies. George Washington is told of this and begins a secret rebellion.

1773: [Paul Revere](#)^[W], [Samuel Adams](#)^[W], [Ichabod Crane](#), [Johnny Tremain](#)^[W] and [Connor Kenway](#) try to [steer a crowd to drop tea overboard](#)^[W] but time traveling allies of [Carmen Sandiego steal the ship](#), which is taken to the Japanese

West Coast. Washington contemplates a plan to bring Japan into the war with Britain.

1775: [The Crew of the Planet Express time travel to this era to stop David Farnsworth's counterfeiting scheme^{\[E\]}](#). They succeed but Fry takes one of two lanterns placed by Paul Revere, causing the signal to instead read the British were coming by Land instead of by Sea, resulting in the capture of Lexington and Paul Revere becoming a wanted criminal and his reputation ruined among many colonists, leading him to be known as "Wrong Way Revere". Washington attempts to cross the Delmarva river to ambush forces in Trenton. The time travelling Alien Visser Four warns the British and Hessians about George Washington's ambush. The Animorphs attempt to stop him but a battle ensued causing further chaos and disrupting the Crossing, forcing a retreat by Washington. [Benedict Arnold is defeated by British General John Burgoyne^{\[W\]}](#) in the Battle of Quebec.

1777: Charles Bone's son Leo Bone(Napoleon Bonaparte) joins the royal navy. [British General John Burgoyne defeats Benedict Arnold at the battle of Saratoga^{\[W\]}](#), causing him to lose a leg. Horatio Gates surrenders to John Burgoyne. Arnold continues fighting. A young boy named [Creighton Brown^{\[W\]}](#) is sent to the colonies and meets his uncle Gower, who takes [San Monique](#) for the British away from the French. Brown spies on the colonists after being rescued by Benedict Arnold but turns against the British after learning his father Harry Brown is alive. Washington is captured and hanged but survives and escapes. Arnold kills Gower in a duel and Harry Brown is rescued. The Duke of Britannia bribes Richard Saunders with the title of Earl in exchange for sabotaging talks with the French to prevent their involvement. The British also obtain the time travelling robot [Iron Jack^{\[W\]}](#).

1777-1778: Winter: Washington, stationed at Valley Forge, decides not to attack Philadelphia.

1778: France and Maestazgo abandon the colonies. Richard Saunders begins peace negotiations. Lord North gains prestige in Parliament. Joseph Galloway and John Dickinson gain influence in Congress. Artemas Ward relieves Washington of command. He is offered leadership of the army of Apodidraskiana and [Catawba^{\[W\]}](#) but declines. He instead resumes attempting to find and rescue the true King George III in secret. An armistice is signed. The rebellion ends. Lord North assures colonists they will not be punished for rebellion. Saunders opens up the land he bought from the Duke of Britannia as a new nation dubbed "The

United States of America". Thomas Jefferson finds a small land called Appalachee. The New England Commonwealth and the Crown Colonies are also created as separate countries.

1780: The Britannic Design is proposed by Britain for the Colonies, intended to go into effect two years later. Many patriots go on the Wilderness Walk towards the Northwest to colonize it including: Nathaniel Greene, Alexander Hamilton, Johnny Tremain, Benjamin Martin, Francis Lightfoot Lee, Arthur Middleton, Edward Rutledge, Benjamin Rush, George Clymer, Benedict Arnold, John Morton, Harry and Creighton Brown, and a young Simon Suggs.

1781: The Britannic Design is approved by the false George III, who allows the Patriots to settle in the midwest Territory in order to wipe them out in one strike. The City of liberty is founded near where Chicago would be.

1782: Alexander Hamilton's son Phillip Hamilton is born. The Confederation of North America is founded. Among its founders is Samuel Adams.

1784: The false King George III orders [John Burgoyne to attack the Liberty^{\[W\]}](#). The attack fails and Burgoyne is killed. The surviving Patriots, fearful of further attacks, move down to San Antonio. No further attacks come as Washington finally succeeds in freeing the true King George III and the imposter is removed from power while Washington is pardoned. Saunders elects to retire and remain in Liberty, adopting [a personality akin to the Hippies of the 1960's^{\[W\]}](#). John Dickinson replaces John Burgoyne as Lord Viceroy of the Confederation.

1785: Fort Pitt is renamed to Fort Burgoyne. Canada rebels but is defeated. many flee to the Lemoyne territory and become known as Canajuns. August: Due to the loss of the War with Britain, Maestrazgo is forced to give up most of their colonies, which will eventually group up and form the United Provinces of South America. September: King Charles III of Maestrazgo is forced to flee to France due to an angry mob.

1786: Leo Bone is put in charge of a ship known as the Coventry.

1787: King Charles III of Maestrazgo plans to deal with the colonists in Jefferson, but dies before those plans can be undertaken.

1788: Tensions between New England and Quebec almost lead to violence. George Washington is appointed Governor General by George III. The event is commemorated in a painting known as "[The Two Georges^{\[W\]}](#)" King George III opens the first continental parliament.

1789: The Paris Insurrection occurs in which an attempted revolt is brutally suppressed.

1791: April: Grigory Potemkin, lover of Catherine the Great, dies.

1794: Washington interferes in the Whiskery Rebellion in Keystone. [Albert Gallatin sides with the locals and captures George Washington^{\[W\]}](#), allegedly due to the [betrayal of Benedict Arnold[↗]](#). Washington is discreetly killed by David Farnsworth. Gallatin then begins to make a deal to merge the United States with Colonies, working with Thomas Jefferson to form a new constitution. King George III learns the news and becomes heartbroken. The personification of America, [Alfred Jones, becomes comatose[↗]](#), leading the personification of Britain to take care of him and France for feeling great shame for not helping the Revolution.

1795: February: Uranus is discovered by a French Astronomer and later named Dionysus. New England abolishes slavery. The French Revolution begins proper due to a misunderstanding leading to guards attempting to bring the Revolution leader Le Diamant to negotiations being misinterpreted as an arrest, leading to violence that results in Le Diamant's death. Marie Antionette is executed via phlogistication(Gas Chamber). An angry mob kills a visiting Thomas Jefferson, infuriating the United States. Alexander Hamilton replaces Jefferson and declares war. Hamilton has a falling out which leads to Benjamin Martin leaving with his son Thomas back to the CNA. Britain declares war on Revolutionary France. Leo Bone lies when he steals a fleet claiming Britain has declared war on France before learning that his lie had become true. Peter III of Russia dies. His son, Duke Paul I of Baltish is set to become King but is contested by the Potemkin Brothers, sons of Grigory Potemkin and Catherine the Great. French Steampunk technology leads to the defeat of Osterian General [Johannes Mozart^{\[W\]}](#). December: Paul is crowned Emperor of Russia, leading to the outbreak of the Russian Civil War when the Potemkinites led by General Saltykov challenge the throne. In the Confederation of North America, Albert Gallatin abolishes the Constitution.

1796: Jean de Lisieux publishes a pamphlet titled "Steam is Republican" promoting steampunk technology as connected with the Revolution. Jean Baptiste Robespierre begins his reign of terror, including executing his political rivals. The Potemkinites successfully take Moscow, forcing the Romanovs to retreat to Baltish. Several tribes in America form the Seven Nations, including the

Iroquois. The Ottomans begin interfering in the Russian Civil War.

1797: Sweden forms an alliance with Potemkinite Russia. Denmark declares war on Sweden. Albert Gallatin finalizes a new version of the Articles of Confederation to rule the Confederation of North America.

1798: France utilizes the "War of Lightning" for the first time against Osterlich. The United Society of Equals (USE) rise up in Ireland. On the verge of victory, a rumor spread that the Potemkinites sacked Moscow, leading to a large part of the army defecting and Alexander Potemkin being captured by the Romanovs. The USE take Dublin.

1799: Richard Wesley, Earl of Mornington leads a mostly Irish Catholic army to retake Dublin. French General Villeneuve nearly kills Louis XVII but Leo Bone is able to save the fleet. Louis XVII lands in France and declares himself King. The Battle of Vienna occurs in which French forces are repelled by the timely arrival of Archduke Ferdinand. General Mozart is mortally wounded. Emperor Paul I of Russia reenters Moscow. Ivan Potemkin and Sergei Saltykov are exiled. Alexander Potemkin is made a duke. The Russian Civil War ends. Leo Bone becomes a hero for his victories against the British. Robespierre is left with no one else to blame and is either murdered or commits suicide. Lisieux takes over. Russia installs a puppet Daimyo in Japan. The Prince of Wales is killed in the battle, meaning Prince Henry William is now the heir apparent. The British are swept out of Normandy by revolutionary France. French forces in Osterlich murder the family of Michael Heidler. Dublin is besieged and retaken by Wesley's forces. James Norton shoots down General O'Neil. He decides to stay and settle in Ireland. King George III falls into madness at the news of the death of his son and dies in December. Prime Minister Rockingham also dies, leading to a constitutional crisis. Henry William crowned King Henry IX of Great Britain. Richard Wesley's armies finally take Belfast, last city held by the USE.

1800: Charles James Fox becomes Prime Minister. He immediately seeks peace with France. Michael Hiedler declares a *War to the Knife* against and becomes *Der Führer*. John Spencer Audenard rises to prominence criticizing The Fox Administration. Henry Grattan becomes the first Irish Prime Minister. Disgusted by the peace between Britain and France, Horatio Hornblower resigns.

1801: Death of Philip VI of Maestrazgo; in his maddened last hours, he is heard to disinherit his eldest son Charles in favour of his second son Philip, but this is disputed. Maestrazgo is plunged into civil war. Leo Bone a.k.a. Napoleone

Bonaparte shocks public opinion in Royal France by being appointed de facto admiral of the fleet by King Louis XVII. End of Maestrazgo Civil War. The Infante Philip is crowned Philip VII.

1802: The Fox Administration votes to outlaw the Slave Trade. The Rape of Rome occurs in which Hoche's forces torch Rome and murder Pope Benedict XV, bringing widespread condemnation. Lisieux reacts by purging Jacobin elements from his government.

1803: France occupies much of Maestrazgo in a Peace deal. The CNA rather reluctantly abolishes Slavery. May: A debate in the CNA over to annex Tropico and make it a slave state wins out. Horatio Hornblower leads a victorious battle against France but loses the use of his left arm. Alexander Potemkin becomes involved with Japan. In the CNA, the Abolitionist American Radical Party under Benjamin Rush broke off in response to the Tropico bill. Cardinal Henry Benedict Stuart, the Jacobite claimant to the throne of England, is elected Pope Urban IX and urges Italians to turn against Hoche. Infante Charles arrives in the City of Mechicoe. All the Maestrazgo colonies are made into the Empire of the Indies.

1804: Philip Hamilton first meets his future lifelong friend James Wayne while working for the Royal Africa Company. The Russian government begins to persecute the Jewish people. The UPSA declares war on the Empire of the Indies. King Louis XVII has a son he names Charles Louis Philippe.

1805: [Ulrich Münchhausen^{\[W\]}](#) rescues the captive Daimyo of Japan. An UPSA ship accidentally attacks a British ship known as Cherry, prompting war. Appalachee splits from the United States over the decision to join the war and fight against the UPSA.

1806: News of the Cherry Massacre reaching Britain. Fox is forced to declare wads on the UPSA. March: Leo Bone effectively becomes Prime Minister of Royal France. Phillip Hamilton and James Wayne join the army to fight against UPSA. Revolutionary France became more infamous when they sack Rome, killing Pope Benedict XV. China falls into the War of the Three Emperors after the Chinese Emperor is killed by a Russian Assassin. Due to the British being spread thin, Revolutionary France realized the way to Britain was open.

1807: France invades Britain. Horatio Hornblower is defeated by Napoleon. The French defeat by 300 Brits became known as "Thermopylae-on-the-Downs". The Hellfire Club switched sides and attempted to lead the French to Parliament, where the uptime Minister set off an explosion, killing the French Commander,

leading the French to mistake this for a deliberate act and hand the man responsible, who ended up surviving. King Henry X is caught and phlogisticated(killed via the gas chamber), his wife Queen Gloriana III survives and is smuggled out of the country by Sir Richard Hector. Upon arriving in the Confederation of North America, Sir Richard Hector was made the first knight of the Round Table. The event became known as *The Humiliation of Edinburgh*.

1809: Revolutionary France surrenders. Napoleon Bonaparte learned of the strange case of [an allegedly insane man named Benjamin Bathurst who claimed to be from an alternate universe where Washington's Rebellion succeeded^{\[W\]}](#), inspiring Napoleon to take more bold actions in taking power, usurping control in France and installing John Audenard as a puppet Prime Minister.

1813: Queen Gloriana III dies in exile after naming her lover, Sir Richard Hector, as her successor. Sir Hector then took the last name of Von Britannia and began the Vi Britannia line. The Britannian Calendar is established, however due to the deal made with Faction Paradox, King Richard is forced to keep the Gregorian Calendar. Part of this was the overthrow of Albert Gallatin, which was accomplished through [a combination of war beasts, reanimated corpse-soldiers, and industrially manufactured plagues and poisons^{\[?\]}](#). Gallatin is then replaced by Benjamin Martin. This leads to the formation of the Holy Britannian Empire, and puts an end to many cries of independence such as those by [Peleg Peshell and the talking animals known as Catalans of the Magical school St.George^{\[?\]}](#). The Formation of the Holy Britannian Empire brought even more to the Lemoyne Territory

1820: The United States of Mexico is formed under the leadership of Simon Suggs, who's existence was supported by Napoleon to sow conflict in North America

1821: Napoleon becomes ill. [Calvin Miller uses his knack to heal him, granting him 10 more years of life. Calvin's brother Alvin finds the new nation of Deseret and builds the Crystal City along with Abraham Lincoln. Judge John Adams formally ends the persecution of Witchcraft and Slavery^{\[W\]}](#). Benjamin Martin is defeated in an election by liberal Party candidate Daniel Webster.

1825: Daniel Webster is defeated in the election by Ichabod Crane.

1829: Daniel Webster defeats Crane and becomes Governor General once more.

1834: The USM is now the only nation that has not outlawed slavery

1845: Conflict between the USM under Pedro Hermión and HBE under [John A.B.C. Smith^{\[W\]}](#) leads to a conflict known as the Rocky Mountain War in 1845 with the New England Commonwealth under [Derrick Van Bummel^{\[W\]}](#) choosing to stay neutral.

1853: The HBE first makes first contact with Japan in an attempt to recruit them into the war via California.

1855: The Rocky Mountain War comes to an end with the USM claiming the California coast and The HBE annexing the Commonwealth.

1860's: Britannia enters a succession crisis after the death of Emperor Aurelien. The presumed successor and First Prince Basilio is murdered by former noble Ganelon, who framed the Weinberg family. The Knight of One, Christoph Chamberlain went missing, causing the Knights of the Round to scatter. Two prominent factions arose, the Legitimate faction led by the House of El(Gar-El and his family) and the Purist faction, led by Lorenzo il Soresi. Claire li Britannia is retrieved and escorted back from Japan by Alto Weinberg, Renya, and their friends. Claire, in place of Prince Basilio's five-year-old son, is backed by the Legitimate faction. Lorenzo is placed under Geass by Shiori to prioritize loyalty to the royal family rather than fulfilling his ambitions. Claire li Britannia becomes empress.

1867: The Wizard Henry Coningsby, fueled by centuries of magical persecution, launches a successful invasion of the Isles in the infamous Night of the Long Counsel. The Old British Government would be remembered as "The Old Parliament" made up of Commoners. While this pushes out France back to their homeland, he follows this up with an invasion of Europe, leading to the Fall of Napoleon's Empire. Prague is the last city to fall in 1868, which is defended by Golems and the Djinn Bartimaeus, who fled after it was taken. The HBE begins preparing for a potential battle with the Wizards.

1879: The USM, falls into chaos after President Kinkaid is assassinated in 1879. The Chaos is worsened by a great depression. His successor for President George Vining suspended election.

1881: USM President George Vining dies. Benito Hermion convinces the cabinet to grant him power, allowing him to become Dictator. Kramer Associates also begins growing unchecked in several countries.

1891: The Mustard War breaks out. It is fought between the Holy Britannian

Empire and Europe. [Advanced Technology invented by Janos Bartok and William Hattison](#) as well as Chemical weapons created by Dr. Alphonse Moreau are used as are other weapons such as Sentient barb wire. One of these weapons killed Prime Minister Coningsby, whose body was magically protected and he was laid in a tomb below Westminster Abbey. In the chaos caused by the death of Coningsby, Charles X, pretender to the throne, attempts to restore the Monarchy in France, setting off a civil War.

1892: The conflict allows Kramer Associates to expand outside the United States of Mexico, and overthrow the government of Alola.

1894: Kramer Associates tries and fails to take the Ottoman Empire.

1898: Russia invades Japanese territory through Alaska in 1898 and is able to reach The Bay of Fog before being repelled.

1899: The USM attacks Alaska and is able to set up a Provincial Russian State in Siberia.

1900: The Tsar Abdicates, marking the fall of the Russian Empire. Benito Hermion declares himself Emperor of Mechicoe. Japan, seeing the defeat of Russia, signs a peace treaty with The Holy Britannian Empire.

1901: The Mustard War ends.

1911: Hermion is overthrown by Diego Cortez y Catalán. The Wizards declare the Anglo-French Empire as the new Angevin Empire, which remains magically dominated.

1903: Mechicoe holds its first democratic elections since 1875. There is an outbreak of creatures known as Promordials that were created as weapons during the war.

1914: The USM has a short 100 day war with the Angevin Empire over Mandoras but this amounted to nothing.

1920: A series of reforms led to the first slave being freed in the USM.

1922: The HBE experienced a period of unrest in the City of Radham led by Charles McNider. Thomas and Marta Wayne set up a secret clinic for those brutally tortured by the Secret Police known as the Lambs and the victims of the outbreak known as the Red Plague.

1924: The Waynes are murdered in Gotham Towne and Inquisitor Jim Gordon, a new transfer from New Amsterdam, is forced to cover it up.

1925: The Lambs spread throughout the HBE and gained control through blackmail, manipulation and threats, using substances such as Thalasin and Soma to control the population.

1935: Martin Norton is elected in the HBE that an effort is made to challenge the authority of megacorporations and the Lambs. The HBE Loyal Kryptonian Gar-El left Earth after the accidental death of his sole remaining relative Clark Kent while trying to bring down his control. Europe also begins to fall into chaos due to wizards such as Grindelwald and Heinrich Kemmler aiding the German Confederation, which experiences chaos caused by the play "Der König in Gelb" (The King in Yellow). Revolution broke out in the Ottoman Empire with the German Confederation sending troops.

1939: The Angevin Empire and the Holy Britannian Empire go to war. Paris falls to German Troops fairly quickly.

1940: Kramer associates, Australia and Japan form an alliance. Germany fails to take Britain but takes most of Europe.

1941: India falls to Germany. In the Commonwealth, Charles McNiders' resistance including Alan Scott, Carter and Shiera Hall, and Rex Tyler are ultimately caught and executed by the Lambs with only McNider himself surviving after being blinded. The HBE debuts its first Superhero in Captain Colonies, whose identity Steve Rogers is kept a secret due to his Irish Heritage.

1942: The United States of Mexico launches an attack against Japan. During this conflict Visser Four appears, attempting to warn the Nazis about the Allied efforts on D-Day, but his prior alterations have changed too much. The team sent to stop him accidentally kill Adenoid Hynkel, who was only a driver. Japan is able to repel the attack by Mexico and bomb Honolulu, is forced to sue for peace and embrace democracy due to the economic toll. However, the USM and HBE launch an invasion of South America and the Holy Britannian Empire takes French Hidalgo. Soon Parador is the only remaining nation left not taken. The HBE Re-Education camps are opened in the countries conquered by the Commonwealth. In New England, Oliver Queen is arrested and executed. The Holy Britannian Empire approves a proposed law making women equal to one vote, the same as non-land holding men while non-whites have their votes raised depending on income but not to exceed 75%. Bruce Wayne, intends to become a reverend but was told by Inquisitor Gordon of the truth and becomes the

[Batman^{\[W\]}](#), basing his costume off a costume worn by his father when he played a Demon in a passion play. Batman's investigation led him to find several tortured metahumans and he then becomes determined to bring the Holy Britannian Empire's corruption down, leading to several reforms and collapse of the Lambs.

1945: The War continues elsewhere with Japan bombing the Bay of Fog.

1947: Mexican forces are pushed out of China with Japanese and Chinese forces invading Siberia, leading to a time of Troubles in the Russian States. The Global War in Europe came to an end despite no Peace Treaty being signed. The same year the Fascist Ted Scott runs for President, opposed by bootlegger Joseph Kegan.

1953: Kramer Associates expands, taking control of Zheng Fa.

1955: The Britannian royal family falls to several betrayals, leading to John IV becoming King..

1962: On June 30: Kramer Associates detonates the first Atomic Bomb and used it to threaten any nation that threatens to resume the Global War, leading to a period known as the "War without War". Wizards continue to rule the Angevin Empire with Detective [Lord Darcy^{\[W\]}](#) becoming famous for investigating magic based crimes.

1965: Britannia tests its first atomic bomb in Australia.

1966: The German Confederation acquires the bomb, leading to riots across the country.

1971: Mexico repeatedly fails to activate their own bomb though the nation itself undergoes positive transformation under President Immanuel Moctezuma.

1973: Tensions began to thaw between the Isles and HBE, leading [Captain Augustine Washington, a descendant of George Washington to create a tunnel linking the heart of the British Empire to North America in 1973^{\[W\]}](#), leading him to become a popular candidate for Governor General despite being an engineer not a politician. The German Confederation would send spies under the spymaster known as the Red Skull, such as the Mutant Kurt Wagner, who clashed with Bran Braddock, known as Crusader X. The many nuclear weapons caused a global disaster, due to [hyper-industrialization, radioactive fallout caused by a lack of a Geneva Convention and constant use of Atom Bombs, and rising sea levels caused by global warming, most people lived and work in cramped, smog-](#)

shrouded cities isolated by the toxic water^[W].

1985: The Holy Britannian Empire royal family members including Lord Volt, Lady Quark and Fern disappear during the [Crisis on Infinite Earths^{\[W\]}](#) after the universe was briefly destroyed and then restored.

1995: The Painting *The Two Georges* was stolen by the sons of Liberty (who also murdered used car salesman Ferris F. Fremont). The Painting is retrieved before a meeting between King Charles III and Governor General [John Calvin Sykes Jr^{\[E\]}](#). During the same trip [Prince Harold III is abducted while visiting California by Sheriff Maximillian Arturo before being rescued](#). His rescuers, who are multiversal travellers, get him to write the Bill of Rights to help govern the US. King Charles III dies and was succeeded by Prince Harold.

1998: The 97th Emperor of Britannia, Harold VI Britannia, is overthrown, and Charles VI Britannia ascends to the Britannian throne. Charles marries Marianne VI Britannia. In response to the [world experiencing a temporary Ice Age](#). The Holy Britannian Empire becomes more fascist in its approach, even practicing slavery and targeting the new Generation of Heroes, the Colonial Society of Justice. This ends when the Squillacci Empire invade Earth, along with an invasion by the Yeerks. After devastating much of the world and even reversing the ecological damage to occupy the Earth. The two races destroy each other, leaving the Holy Britannian Empire to rebuild and emerge from the destroyed Megacorporations and Europia United to form. Britain itself is largely untouched due to the magicians holding their own.

2000: The young boy Nathaniel Mandrake summoned the Djinn [Bartimaeus^{\[W\]}](#) and begins using him to oppose the Occupied British Government, launching a failed coup. Tensions escalate into war with the Britannian Empire with Prime Minister Rupert Devereaux growing increasingly more paranoid as rebellions and riots break out.

2005: a magical attack wipes out the entire Magicians' Government, leaving a New Interim Council in charge and [the Radical Party takes over^{\[W\]}](#).

2009: Marianne VI Britannia is killed by V.V. Her children, Lelouch VI Britannia and Nunnally VI Britannia are sent to Japan as political hostages. Japan begins distributing Sakuradite to the warring Chinese Federation, EU and Britannia while remaining neutral.

2010: The [Holy Britannian Empire invades and occupies Japan^{\[W\]}](#), renaming it Area 11.

2017: Viceroy and Third Prince Clovis la Britannia are killed by the revolutionary Zero, who forms the Black Knights. Rebellion spread across the Empire. The United Federation of Nations declare war on the Holy Britannian Empire. After the apparent death of Zero, a truce is negotiated with Japan becoming neutral and with Lelouch vi Britannia being coronated as the 99th Emperor of the Holy Britannian Empire. Lelouch is actually Zero and brought down the Holy Britannian Empire from within.

2018: Lelouch was assassinated. Nunnally vi Britannia succeeded her elder brother as the 100th Empress of Britannia and begins to work in cooperation with the U.F.N. to achieve peace. In North America, democracy returns and the Democratic Radical Party was formed.

2019: On Earth 1, The Templin Institute member [Emily[↗]](#) begins researching Earth 6(dubbed Earth L) and reporting to Steve Rogers(*Look to the West*).

3012: America was still a recognized as a colony [in this year.^{\[W\]}](#)
